TO WHOM IT MAY CONCERN

I would confirm that Jones & Woolman have successfully undertaken work for us over a nine year period and their quality of work, competitiveness and speed of response has always been most satisfactory and I would not hesitate in recommending them or their products to others.

Their particular ability in respect of the provision of purpose holes to a wide range of roof and cladding profiles has proved most useful to us, as has their somewhat unique ability to detail and fabricate special glassfibre and PVC mouldings.
